Drilling Equipment Resources Breaking Ground on Broken Arrow Location

Broken Arrow, OK – February 12, 2024 – The Broken Arrow Chamber and Drilling Equipment Resource will host a groundbreaking ceremony on Tuesday, February 13, to celebrate the new construction of Drilling Equipment Resources new Broken Arrow location.

Event Details

Time: 11 a.m.

Date: Tuesday, February 13, 2024

Location: Creek 51 Business Park, Highway 51 and the Creek Turnpike

“While all types of drilling provide important resources, the water well industry is the most important sector of the drilling business. Over 50% of all Americans (including public water systems) get their drinking water from a water well. It is important to us that we educate and advocate locally and nationally for clean water sources.” said Derek Anderson, Drilling Equipment Resources President. “Broken Arrow is growing rapidly and we feel it's vital for us to continue to support the community as the growth continues.” Continued Anderson.

“Drilling Equipment Resources is family owned and community driven. This sizeable investment of over \$2.5 million reflects their commitment to Broken Arrow.” said Jennifer Conway, Broken Arrow Chamber of Commerce President and CEO. “We look forward to breaking ground on their new location.”

Located on the north side of Hwy 51, the building will be approximately 20,000 square feet on 4 acres. This new construction is being designed and completed by GH2 architects and Scissortail Construction.

Drilling Equipment Resources was founded in 2008 to resolve a common need in the drilling industry: access to new and used equipment.
